

XiaoChiBu Chase Idea

Alfred Su

May 21, 2026

1 Lore & Back Story

XiaoChiBu is one of the most crowded space in the campus, and there's always a lot of people waiting at the McDonalds

Mei really like one of the delicious snack there but unfortunately she's way too busy to spend time there waiting in a long line just to get it. So MC got an idea... He wants to give her a sweet surprise.

(Player would know MEI WANT SOMETHING SWEET, but do not know WHAT KIND OF SNACK SHE WANTS (that being Apple Pie), they have to guess it)

2 Complete Flow (Winning Condition)

MC get into XiaoChiBu →MC go to the McDonald →MC or NiuPai waits in line & order CORRECT food

The food is finished →MC get the food →MC get out safely

Mei would be waiting outside (if MC brought correct food) →MC gave her the food →Win the heart.

3 Losing Conditions

- MC brought the wrong food out. Mei won't appear in the first place. (will have cutscene to hint the player), won't lose any heart.
- MC's hp dropped to zero. Will lose one heart.
- NiuPai's hp dropped to zero. Will trigger a bad ending.
- MC didn't brought any food out. Will trigger a cutscene. (He think he's a moron), but won't lose any heart.

4 User Control

- arrow keys / WASD: moving the character
- E / Space: use the item in hand
- Q: drop the item
- F: pick up the item
- Shift: moving carefully (will be slower)

5 Characters

5.1 MC

Player-Controlled Character, can:

- order & take food
- attacked & killed by the black dogs
- wait in line & cut in line (low success rate)

5.2 NiuPai

Most Royal Companion, can:

- wait in line, people in line might let him move forward
- attacked & killed by the black dogs
- stall the black dogs: he counter attack the Black Dogs, cause the attacker to slow down for 1.5 seconds
- wait in line & cut in line
- always follow MC unless he's told to wait in line for MC.

5.3 Normies

Just normal student having their meal, will have 3 actions:

- Walking around
- Wait in Line
- Eating at their seat

Even though they aren't something special, they still have some mechanisms

- **MC Can't walk through them unless walking carefully**
- NiuPai not affected.
- Black Dogs not affected (if there's time left, they can even be implemented as dodging the black dogs if they are close)
- MC might drop item if walking into them (not carefully)
- **Black Dogs Cannot Attack MC and NiuPai if they are walking through Normies**

5.4 Black Dogs

moving mechanism There would be 2 navigation modes:

- WANDERING: they'll just moving randomly, but has a tendency to get close to the McDonald
- CHASING: within a certain radius, they'll start chasing MC.
- PATROLLING: if MC is ordering McDonalds.
- ROBBING: 3 seconds after NiuPai finished ordering McDonalds, they'll head straight to McDonalds and get into fight with NiuPai.

attack Once they get really close to MC or NiuPai, they'll attack. MC / NiuPai would lose 2HP/s. Also there would be a 20% chance that MC will drop the holding item if being attacked by them.

explode & obstruction They can be blocked by McFlurry & they'll be stunned (completely frozen) for 2 seconds if within the exploding range of Filet-O-Fish

5.5 McDonald & Workers

- McDonald would provide several meals. will be listed & explained at next section
- Worker Prepares meal and will put it at the counter if the meal is ready
- MC can **steal** other people's order. But with side effects

6 McDonald

6.1 Core Mechanism

in McDonald the core mechanism includes:

- Waiting in line & Order the item
- Queue
- Stealing other's order.

6.1.1 Timing

for each customer:

1. order (Normies only): 2 ~ 5 seconds
2. worker finishes order: 5 seconds
3. Normie take out the order: 3 ~ 5 seconds

6.2 Waiting & Ordering

6.2.1 About Queue

There's always **at least 5 people, maximum 9 people** in the line. After one customer *Finished Ordering*, **1 ~2** people will be added into the queue.

6.2.2 Interactions

Entering Upon entering the McDonald, the scene will be temporarily paused (so there's no unfair advantage for Black Dogs). And MC can decide if he want to order food. There would be several (not too many questions)

Question 1 Do I want to order food? (Y/N) (Go to Q2)

Question 2 NiuPai: Woof! Woof! (I can help you wait in line / order the food) (Y/N) (Go to Q2A if Y, Q2B is N).

Question 2A Should I wait or cut in line? (Wait / Cut)

Question 2B What food to order? (tell NiuPai what to order)

MC order by himself If MC decided to order the food by himself, depends on Q2A, there would be 2 interactions

- MC decided to cut in line: **Cutting in line one-by-one**, if succeeded →go forward for one; failed →**go back to the rear of the line** (80% MC might succeed)
- MC decided to wait: nothing happens, just wait.

During waiting, Black Dogs **cannot attack** NiuPai & MC, but they'll patrolling around the McDonalds.

When it was MC's turn, a conversation would pop up for MC to decide what to order.

NiuPai helps MC

- People in the queue might let him move forward. (at 85% chance). nothing happens if denied.
- NiuPai would complete the order by himself

After NiuPai Complete the order, he'll waiting right outside of the McDonalds.

6.3 Stealing

MC can steal Normie's order. But **MC himself cannot wait in line & order again**, otherwise he'll be arrested (one bad ending).

6.4 Items

These items can be brought out / dropped down. MC can order & carry **only one of them at a time**.

Food can be dropped at any walkable tiles or tables, but they'll go bad (if not on the table)

BigMac Can distract the Black Dogs within range. Also will heal NiuPai completely. has 30HP.

- For NiuPai: he can be completely healed if MC use BigMac near him. won't take any HP out of the burger. Notice that NiuPai won't be healed again even if he touched placed BigMac
- For Black Dogs: they will be distracted by the BigMac within certain radius (slightly smaller than the range they chase MC)

Apple Pie This is what Mei wants. MC can be fully healed if used. No other effects

McFlurry Can fill up the block MC's currently at (can be used 3 times). Only MC and NiuPai can walk through it normally. Their speed won't be affected.

Filet-O-Fish Will Explode 1.5 second after used.

- MC can be hurt by the explosion (NiuPai won't because he's pretty agile):
- Will remove REMOVABLE tiles (including the McFlurry Block) (5 tile, "+" shaped)

7 Map

7.1 Map Tiles

Table Not REMOVABLE, Will block everyone. food won't go bad if dropped here. MC will drop the food here if he's near it.

Chair Not REMOVABLE, Will block everyone. People might sit here

Stalls Not REMOVABLE, Will block everyone. Cosmetic only.

McDonald Technically not "a block", not REMOVABLE, will block everyone.

Boxes & Warning Signs **REMOVABLE**, Will block everyone.

7.2 Generation Mechanism

The XiaoChiBu core layout will be the same (unless we have time to mess with the randomization). But **placement of the REMOVABLES and Normies would be randomized.**

7.3 Base Layout
